

360° EAM For Manufacturing

All-in-one Manufacturing Solution

One solution to support all manufacturing activities including maintenance, inspections, safety, risks, accounting, purchasing and inventory

Key features include:

- Integrated Manufacturing Equipment Lifecycle visibility, control and management.
- Fixed plant and mobile equipment configuration and hierarchy management
- Best practice templates to simply, standardise and fast-track the creation of asset structures, fleet operations and maintenance tasks.
- Caters for all manufacturing equipment including production equipment, support equipment, facilities and buildings
- Some of the key modules are:
 - Maintenance Forecasting
 - Work Order Management
 - Finance General Ledger
 - Permits & Warranties
 - Vendor & Trade Agreements
 - Mobile workforce
 - OHSE
 - Risk Management
- The solution has been developed in Microsoft's Dynamics D365FO platform and offer superior scalability, one integrated platform and ease of use.
- A HTML5 based mobile application available for all out of office activities.

360° EAM for Manufacturing

One modularized platform for all manufacturing role players

Key benefits include:

- 360° enterprise-wide visibility enables sound asset decisions to drive financial value at every stage of the asset lifecycle
- Increase assets availability and the extension of equipment life
- Increase resource productivity and allocation
- Optimise maintenance, repair, and operations (MRO) inventories and automate the fulfilment of spare parts and supplies
- Track the financial performance of assets
- Up to date information on the total cost of ownership of an asset.
- Keep traceability of assets to increase accountability.
- Benchmark asset management activities against industry best practices
- Keep all the information in one place for timely decisions about assets in order to balance risk, cost, and benefit of assets over their life cycles
- Full cycle Asset compliance and risk management to ensure all assets are within best practice parameters and all OEM and government requirements are met.

Single-Point visibility

The manufacturing solution enables owners, managers and operators to all use one integrated platform
