

Purple EAM Construction & Job Cost Management

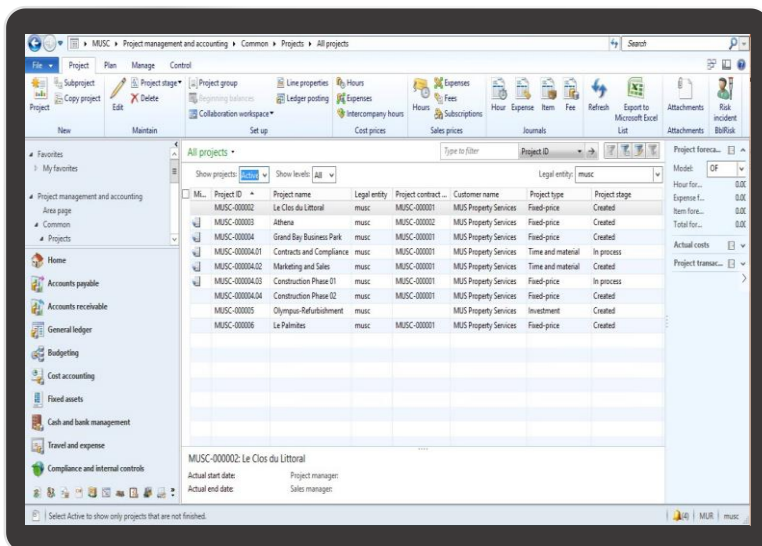

Creating visibility through integrated projects

The contract and job cost module drives on-time delivery, cost tracking and capitalization of Asset construction and upgrade projects.

Key features include:

- Support different project types such as:
 - Time & Material
 - Fixed Price
 - Investment
 - Internal
 - Cost
- Project hierarchies which can include different project types in the same hierarchy.
- Cost tracking with regards to:
 - Time (hours)
 - Material
 - Expenses
 - Revenue (Fees)
- Roll-up of project P&L within project hierarchies.
- Complete WIP visibility across project hierarchies
- Completed projects can be capitalised to the Asset Register
- Integration with Microsoft Projects
- Integration with Microsoft Excel
