

# Purple EAM Mobile Workforce

**Effective service management must be mobile**

The mobile workforce module enables mobility across services, maintenance and delivery organisation.

## Key features include:

- The asset manager has visibility of:
  - Inspection and service history
  - Lease contract information
  - Lease expiry information
  - Lessor detail
  - Incidents
- Service and Technical workers can:
  - Get notified when new work has been allocated.
  - Receive and accept tasks for
    - Maintenance
    - Inspections
    - Safety
    - Support
    - Cleaning
  - Get directed via maps to the specific location.
  - Execute tasks, feedback labour, spares and other resources used.
  - Get electronic signature for work completed
  - Take pictures and attach to work completed.
  - Get full history of an asset
  - Order spares and other support resources via the mobile.

# Mobile Workforce

The mobile worker can accept, plan, execute and feedback on his smartphone.

## Key benefits include:

- 360° visibility and control of the entire portfolio and workforce.
- Reduce service, inspection and maintenance costs
- Reduce labour costs
- Increase team productivity
- Increase asset utilisation and availability
- Reduce stock levels
- Track key equipment, team KPIs
- Increase asset profitability
- Minimize downtime
- Increase team profitability
- More effective work planning
- The mobile solution is platform independent and runs on any smartphone, tablet or browser.

## Being Mobile is Everything

Competitive Asset operations must mobilize portfolio, service and contract teams.
