Fleet for Rental and Leasing

One modularized platform for all rental and leasing role players

Key benefits include:

- 360° enterprise-wide visibility enables sound asset decisions to drive financial value at every stage of the asset lifecycle
- Increase assets availability and the extension of equipment life
- Increase resource productivity and allocation
- Optimise maintenance, repair, and operations (MRO) inventories and automate the fulfilment of spare parts and supplies
- Track the financial performance of assets
- Up to date information on the total cost of ownership of an asset.
- Keep traceability of assets to increase accountability.
- Benchmark asset management activities against industry best practices
- Keep all the information in one place for timely decisions about assets in order to balance risk, cost, and benefit of assets over their life cycles
- Full cycle Asset compliance and risk management to ensure all assets are within best practice parameters and all OEM and government requirements are met.

Single-Point visibility

The rental and leasing solution enables owners, managers and operators to all use one integrated platform
