

360° Fleet Mobile Workforce

Effective service management must be mobile

The mobile workforce module enables mobility across services, maintenance and delivery organisation.

Key features include:

- The fleet manager has visibility of:
 - Inspection and service history
 - Lease contract information
 - Lease expiry information
 - Lessor detail
 - Incidents
 - Vehicle & Truck status & availability
- Service and Technical workers can:
 - Get notified when new work has been allocated.
 - Receive and accept tasks for
 - Maintenance
 - Inspections
 - Safety
 - Support
 - Cleaning
 - Get directed via maps to the specific location.
 - Execute tasks, feedback labour, spares and other resources used.
 - Get electronic signature for work completed
 - Take pictures and attach to work completed.
 - Get full history of an asset
 - Order spares and other support resources via the mobile.

Mobile Workforce

The mobile worker can accept, plan, execute and feedback on his smartphone.

Key benefits include:

- 360° visibility and control of the entire portfolio and workforce.
- Reduce service, inspection and maintenance costs
- Reduce labour costs
- Increase team productivity
- Increase asset utilisation and availability
- Reduce stock levels
- Track key equipment, team KPIs
- Increase asset profitability
- Minimize downtime
- Increase team profitability
- More effective work planning
- The mobile solution is platform independent and runs on any smartphone, tablet or browser.

Being Mobile is Everything

Competitive fleet operations must mobilize portfolio, service and contract teams.
